- £5.28 minimum per hour
- Many degree apprenticeships pay circa £25k
- Higher the level = higher the wages

£ £ £

Degree Apprenticeships

Degree apprenticeships combine full-time work with part-time university, to work toward a bachelor's degree or master's degree across 3-6 years.

How you can benefit?

- 3-6 years of full time on the job work
- experience in the sector you are studying
- A fully funded degree with zero student loans
- Create personal links and working relationships with people in the sector prior to graduation
- Gain knowledge and real life experience to support alongside your studies
- Grow skills (time management, communication, confidence, organisation, IT...)

How to apply & find degree apprenticeships

How?

You can apply for a degree apprenticeship in the same way you might apply for a job - by looking for opportunities and submitting an application.

Check out the following sites-

- Gov.UK- Find an Apprenticeship Service (filter by Higher & Degree Apprenticeships)
- UCAS
- Prospects
- Rate My Apprenticeship
- Amazing Apprenticeships
- Employers & Providers

When to apply?

Like any other job, employers can advertise a degree apprenticeship at any time, throughout the year.

There is no application cycle.

Apply through the Gov website or through the employer!

How can we support you?

In college:

I can support you with one to one guidance, CV guidance and helping you to find where those all important jobs are!

See reception to book an appointment

Outside of college:

We can support you with CV guidance, interview support, signposting you information regarding apprenticeships/ degree apprenticeships, as well as referring you to employers.

Jo Martin- Apprenticeships Lead at LEBC.

Thank You
